	<p>Jules shared the Equal Opportunities presentation and explained all about the upcoming report</p> <ul style="list-style-type: none">• We want to make sure that everyone who is part of Gig Buddies is treated fairly and that no one gets left out• We collect this information to understand who is accessing our project and sometimes we have to use this information for reports• We don't share this information with people• Jules explained about 'consent' and how it your choice if you want to answer the questions or not

Jules started sharing the different questions the council would like to know about our participants and said to put a thumbs up, thumbs down or in the middle if we understand the question or not.

Gender

- Storm and Thunder agreed that this question made sense to them.
- Rami raised a good question about why people write 'she/her' 'they/them' after their names. We explained that some people like to let others know what they want to be referred to so there is no confusion.

Sexuality

- People felt like this was too personal and wouldn't want to answer it

Ethnicity

- People agreed that the word 'ethnicity' was a bit confusing, and a list of options would be better so that they could tick the one they relate to.

Religion

- Rami said he would rather not tell people about his religion
- Bethan said she would feel uncomfortable if someone asked her this
- Everyone agreed that it sounded too personal

Disabilities

- The question that the council have included is 'are your day-to-day activities limited because of a health condition or disability?'
- Fran and Bethan said they would feel upset if someone asked them this
- Victoria said she doesn't like the word disabled she would rather 'learning disability' because the word 'disabled' sounds negative.

	<p>Carer</p> <ul style="list-style-type: none">• Rami said this was not clear• Bethan said she felt like there is too much information included and it gets too much after already answering so many questions
